

22/9/2024

Professor Govindan Rangarajan,
Director,
IISc Bengaluru

Dear Prof. Rangarajan,

We are writing to express our deep concern that the Indian Institute of Science is sponsoring and hosting an "India-Israel Business Summit" on 23rd September.

As you know, Israel is currently engaged in a brutal war. In this campaign, Israel has killed more than 41,000 Palestinians, most of whom are women and children. A report in the Lancet suggested that the true casualties might be four times higher, which would amount to about 10% of Gaza's total population. Israel has destroyed every University in Gaza. It has also destroyed healthcare facilities, leading to the resurgence of diseases such as polio. The World Food Agency estimates that 96% of Gazans are facing food insecurity. Alongside, Israel has also launched brutal raids on the West Bank and just this last week, Israel engaged in terrorist attacks in Lebanon by remotely detonating electronic devices, many of which were in civilian areas.

The International Court of Justice recently ruled that the Israeli occupation of Palestinian territories violated international law, and the UN General Assembly has recently passed a resolution with an overwhelming majority urging an end to this occupation. We also witness the world academic community and various universities divesting from Israel due to students and faculty members coming out in solidarity with Palestine.

In this situation, it is unconscionable for IISc to encourage collaborations between India and Israel. We are especially concerned that one of the planned tracks of discussion is in defence and cybersecurity. Such cooperation would amount to direct support for Israel's genocide in Palestine and its aggressive actions against its neighbours.

We request you to stop the "India Israel Business Summit" event on 23rd September and not allow the use of the Indian Institute of Science as a platform to legitimise genocide and colonialism.
